Dear Seymour -

I don't want to undercut Ralph
Alton's and our development staff's
noble efforts; but I can not see my
own unaided judgment would be
very enthusiastic about sending financial
appeals to our scientific trustees. Please
respond or not just as you see fit,
(including any comments you wish to
address on the propriety -)

Much more important is the
advice we might glean from you.

I will be in Calif. roughly 12/15-30 +
will look for you at the Center,
if you're there.

Else, can you spare some time
for me in early Jan. when you're
in N.Y.C. ?

Yours,
Jsh.
