Brof'y / CSRS - paper

Dear Fred

I had a chance to talk to Bob-K. about this.

Until early November I will be very busy preparing an assessment of "Yellow Rain" which is cognate to the principal military implications of Brof'y. I will be glad to use this for a report to your committee.

I am not eager to put my comments in a published forum, even if unofficial -- enough wicked ideas are afloat already, and some of those would be all too easy to implement.

Would my report be confined to the committee?

Please advise,

James,
Jim.
