Dr. Joshua Lederberg  
Professor and Chairman  
Department of Genetics  
School of Medicine  
Stanford University  
Stanford, California 94305

Dear Dr. Lederberg:

Thank you for your letter and expression of interest in tropical medicine. I was also looking at malaria smears, but as a technician in the U.S. Army.

I shall be in New York for one or two days the week of June 26, so it may be possible for us to visit briefly at that time. I will write later about this possibility. Dr. David Hamburg and I have already had discussions on the international health issues and he certainly is a strong supporter of a greater commitment to research.

Yours sincerely,

*Richard M. Krause*
