

Mr. Adrian de Ceballos

JAN 26 1984

NRDC

Dear Betty —

This is to tender my resignation
as a trustee.

You know how much, as a
founding member, I endorsed the
special role of NRDC as an agent
for the enforcement of environmental
law through litigation. I did
not agree with every initiative,
nor need I: you had the discipline
of judicial outcome.

Now NRDC has gone far afield:
in advocacy, in public propa-
ganda, and far away from its
original environmental agenda.

I do not feel I can any longer
serve a useful purpose, much
as I applaud the heavy good
things that NRDC will continue
to do. Where I can sincerely
in other roles, please
call on me.

CC: John Adams.

Sincerely,
John Adams.
