Dr. Joshua Lederberg Biochemistry Department Stanford University School of Medicine Palo Alto, California

Dear Joshua,

I think there is a good possibility of bringing Norton Zinder to Yale, since Bronk's appointment policies appear to have sown seeds of discontent among the younger people at the Institute. To start the ball rolling we need appropriate letters of recommendation to obtain an attractive offer from the university administration. Needless to say a letter from you would help enormously. If you are willing, please send it to me and I will funnel it through administrative channels.

With best wishes,

Alan Game
