14 April 1961

Dr. Joshua Lederberg
Department of Genetics
School of Medicine
Stanford University
Palo Alto, California

Dear Joshua:

Thank you very much for your very helpful letter of April 11. You may rest assured that you will indeed receive an invitation; I expect to be discussing the final arrangements with Drake fairly soon.

I am attending the SRI Symposium on Chemical Reactions in the Lower and Upper Atmosphere next week (April 18-20) and staying at the Mark Hopkins. I expect to be coming out to Stanford in the course of the meeting and, if convenient, I shall be glad of an opportunity to drop in on you briefly.

Best wishes.

Yours sincerely,

Peter
