Dr. Joshua Lederberg Department of Geneties School of Medicine Stanford University Palo Alto, California

Dear Joshua:

Thank you very much for your very helpful letter of April 11. You may rest assured that you will indeed receive an invitation; I expect to be discussing the final arrangements with Drake fairly soon.

I am attending the SRI Symposium on Chemical Reactions in the Lower and Upper Atmosphere next week (April 18-20) and staying at the Mark Hopkins. I expect to be coming out to Stanford in the course of the meeting and, if convenient, I shall be glad of an opportunity to drop in on you briefly.

Best wishes.

Yours sincerely, J. P. T. Pearman
