

January 31, 1950.

Mr. G. W. Walls,
Biological Abstracts,
Univ. of Penna.
Philadelphia 4, Pa.

Dear Mr. Walls:

We will be glad to abstract the journals mentioned in your letter of January 24th. Professor J. F. Crow has agreed to collaborate on the AMERICAN JOURNAL OF HUMAN GENETICS, and Mrs. Lederberg and I will handle the Zeit. ind. Abst. Vererbungslehre. The latter journal has appeared very irregularly since the war. Can you tell me when it was last covered, so that we may know at what point to begin our work? I am not sure that our library has carried any issues of recent date, but our librarian assured me that we would receive any issues that were published and could be purchased.

Sincerely,

Joshua Lederberg
Assistant Professor of Genetics
