Shattered Mirrors

Dear Dear Price -

Thank you for sending me your book -  
and for understanding its message.

May I burden you with a bit  
more on the same theme.

The prospect of a broken civility -  
aggravated by a population of increasing  
"lepers" - and by what numbers of these  
will do in a techno-Anglo society  
when they have "nothing to lose" - is  
an onerous metaphor for the 3d world.

A brighter note is a turnaround of  
understanding (a belated one!) in  
the scientific community generally.

Sincerely,

Joshua Lederberg
