Head of the Department of Genetics
Leland Stanford University
Palo Alto, CA.

Dear Doctor:

Enclosed is the article written by Robert Ardrey. I was very impressed with his territorial imperative and got a number of thoughts from it. But somehow his article in our Sunday paper did not strike me as being quite true to form. I would appreciate your judgment in this matter which is far better than anything that I could evolve.

Sincerely,

Lawrence D. Smith, M.D.
