Dr. Joshua Lederberg
Stanford University
School of Medicine
Stanford Medical Center
Palo Alto, California 94304

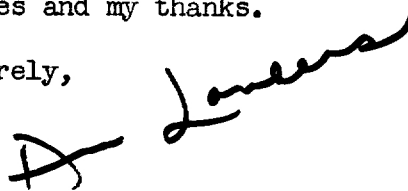

Dear Dr. Lederberg:

Thank you for your immediate reply to my letter requesting information on LSD and unborn babies. In addition to the information, I was especially interested in your closing sentence. "If Congress continues to cut back on budgets for health research, we may never have the answers to these questions."

As I am on the Harvard Medical School Committee for Development and Resources, I am painfully aware of the problems which have resulted from slashing the federal budget. Medical research is in a bad way. And, it is going to get worse before it gets better.

I would like permission to publish an edited version of your letter. If you would like to strengthen your closing statement, it might be very useful. May I hear from you on this? My best wishes and my thanks.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Ann Landers', with a large, stylized initial 'A' to the left.
