John Lear

Science Editor

March 27, 1969

Dear Dr. Lederberg:

Would you be willing to allow me to reproduce your Washington Post column of March 15 on fluoridation of public drinking water in our pages? I would like to use it as one of several viewpoints following up my own report of last month.

I could offer you a reprint fee of \$100.

If this is agreeable to you, what clearance must I get from The Washington Post, and through whom?

With best wishes.

Sincerely,

Dr. Joshua Lederberg
