Dear Mr. Lederberg,

By way of Introduction, I am a student at Lehigh University, and I am doing rather broad - based research into environmental pollution, in particular radiation.

Of course I didn't miss Dr. Sternglass's article and your criticism. Included in yours were references to articles attacking the inferences made by the former.

I would appreciate it if you could send me reprints of the articles you use to refute the "expose" (if they are easily available) or the addresses where I might obtain them.

Thank - you very much, and my encouragement goes out to you to continue to keep the populace properly informed on matters so important as these.

Very Sincerely,

Pete Skinner
