SEP 11 1969

Re- Stockholm meeting. I have your wire.

I will look for Al Friendly, and be any help I can. Nigel Calder might be even more to the point, as he is serving as press ~~xx~~ sec. to the conference.

Article for 20th:

I will justify dateline by wiring any necessary corrections from STO Monday noon latest. I will be staying at the Conference mansion "Södergarn, Lidingö", ~~xxx~~ telephone Stockholm 7656601

Unless the polar flight is skyjacked to Damascus, I will be in Copenhagen by the time you get this.

Sincerely

P.S. ~~XXXXXX~~ I doubt if I've left enough room, but I think the piece might make more sense if it were bylined:

Dr. Lederberg received the Nobel Prize in Stockholm in 1958, at the age of 33, for his work on ~~the~~ molecular genetics.
