

Congress of the United States
House of Representatives
Washington, D.C. 20515

November 6, 1969

Dr. Joshua Lederberg
Genetics Department
Stanford University
Stanford, California 94305

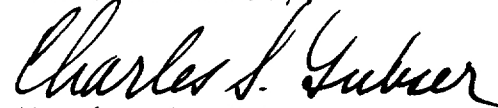

Dear Dr. Lederberg:

Thank you for your communication and enclosures of recent date.

As an old-time debater, there is little I hold more sacred than hearing both sides of an issue. This is the basis of truth and truth is the most important thing we need in America today.

For this reason I am more than pleased to present the other side of Dr. Shockley's story, and I enclose a tearsheet herewith.

Yours sincerely,

Charles S. Gubser
Member of Congress

CSG:jh

Encl.

*I note this with thanks
and appreciation.*
