Re: Pill // OUTLOOK

How about Roy Hertz vs. Carl Djerassi
(not exactly versus) to comment
in their own words about pill, like
Jukes/Wurster on DDF

Hertz will already have put down his
testimony for the Nelson committee; Djerassi
has some thought-provoking commentary on
the further issues in the attached.

I think the rational conclusion is that
oral-contraceptive research will have to be
moved bodily to centers in the underdeveloped
countries themselves, so that "products in-
vented there" will diffuse back here, not
be "pushed" at them by economic imperialists
.....

This will require both commercial and govtl.
support for such programs abroad.

P.S. If you were to publish this dialogue
I could more comfortably criticize Djerassi's
position while still declaring my close
personal ties to him.
