Dr. Joshua Lederberg
Stanford University School of Medicine
Stanford Medical Center
300 Pasteur Drive
Palo Alto, California

Dear Doctor Lederberg:

The enclosed note from March 11th was self-explanatory. We have published in the field of why mosquitoes bite skin and the mechanisms of actions of insect repellents.

My enclosed curriculum vitae lists most of these. If you would check those that are of interest, we would be pleased to send you those for which copies are available. *

I wish to tell you how much I personally have enjoyed your lectures which I have had the opportunity to hear.

Sincerely,

Howard I. Maibach, M.D.
Associate Professor and Vice Chairman
Department of Dermatology

HIM/ldw
