DEPARTMENT OF GENETICS
Professor Joshua Lederberg

Dear Mr. Holifield:

I am happy to present "my identity on the record against sabotage by fire...."

I must also say that it has become increasingly difficult to persuade our students about the moral imperative of non-violence while they see, and are compelled to be part of, the use of force in the pursuit of objectives in Indochina about which they are so totally unconvinced. Furthermore, statements like the one by Vice President Agnew denying the reality of the student protest are an incitement to express that protest in violent forms, when peaceful ones are derided as a lark.

Yours sincerely,
