Dear Josh,

Enclosed is a copy of the report of the Appropriations Committee on the bill providing health funds for FY 71. The language pertaining to the Genetics Task Force begins on page 26 and goes over to page 27.

The bill is scheduled for a vote tomorrow. If anything is said in debate that might interest you I'll send you a copy of it, although I suspect you subscribe to the Congressional Record. In any case, this report has the language describing the way the Task Force is to be set up and operated.

I called Harold Schmeck of the New York Times last week to tell him this action was in prospect. He was on vacation and rang me back today. I brought him up-to-date and he said he would obtain a copy of the report and write a story tomorrow.

Sincerely,

A handwritten signature in cursive script that reads "Luke Quinn". The signature is written in dark ink and is positioned to the right of the typed name "Luke C. Quinn, Jr.".
