Mr. Joshua Lederberg
Professor of Genetics
Stanford University
Palo Alto, Calif.

Dear Professor Lederberg,

Recently I read an article by you that appeared in the Atlanta Journal titled "The Urban Technology Maze".

I have been working on one phase of the maze for six years. The effort is to give to our governmental leaders better information on operating results. Some progress has been made, however we have a long way to go.

Please read the enclosed article I wrote for the Atlanta Journal. This is only one step towards solving our problems. Without uniform reporting & behind many other steps are overburdened.

Hope to hear from you soon -

Sincerely,

Ken Neault
