Dear Dr. Lederberg:

I appreciate your letter of January 26th and thoroughly understand the dangers of terminating grant supports from the National Institute of Health for graduate students in biomedical research. In my opinion, this type of research as well as other types which are supported by other departments of the government at Stanford University are essential to the future well-being of the country.

I agree with your point of view and will support it to the best of my ability.

With all good wishes, I am

Yours sincerely,

Charles S. Gubser
