

Memo from
JOSHUA LEDERBERG

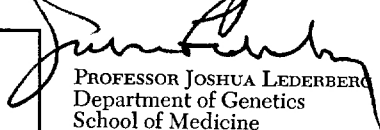

To: Dr. Cairney

FEB 9 1978

Thanks you.

This field is moving so quickly that the ~~article~~ article I wrote will seem slightly "dated", for not referring more forcefully to recent developments in DNA splicing. However this is no help for that, and I have no complaint about my own contribution appearing in its present form.

Sincerely,

PROFESSOR JOSHUA LEDERBERG
Department of Genetics
School of Medicine
Stanford University
Stanford, California 94305
