Collygate Review Sam #

Thank you. Yes, I have something  
concrete in mind and I will  
deliver it by March 25: "the structure  
of DNA and the complexity of the human  
organism". Please trust me to  
time it to your audience.

Thank you for your note about David.  
He does seem to be calmer now that  
his choices (and self-image) are  
crystallizing.

Sincerely  
Johna Leubing
