Howard Fields, M.D.  
Walter Reed Army Research Institute  
Neurophysiology Department  
Washington, D. C. 20012

Dear Dr. Fields:

Your note of August 22 was especially gratifying especially coming from a former student here. It was kind of you to take the time to write. You would be surprised how few people do so when they have something to say as positive as you did.

Sincerely yours,

J. Lederberg  
Professor of Genetics

JL/mla
