To: Ed Feigenbaum

FEB - 1 1982

In the beginning ... Dendral
what happened?

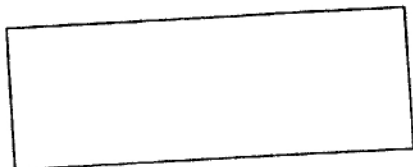

Dear Ed:

If it is not already too late, can you
still find any of the earliest pieces of
paper, correspondence, proposal drafts
etc., that might date + document the
beginning of the Dendral project?

I will dig out what I can do.

When were you at the Center? What
were you doing there?
