Dear John:

I wanted to write you immediately to express our very deep appreciation to you and to the Trustees of the Macy Foundation for the major grant of \$85,000 for continued support of our computer program under Dr. Lederberg. I am sure you know from what both Josh and I have told you that without the Macy Foundation's support it would not have been possible for us to get this marvelous venture off the ground; even though we have a major grant from the National Institutes of Health, the additional funds from the Macy Foundation have given us the added flexibility that was essential to the success of the program.

I hope very much that some time soon you will be able to get out and see first hand what is going on in this area. It really is exciting.

Thank you again so much for the grant. With warmest regards, I remain,

Very sincerely yours,

Robert J. Glaser, M.D.
