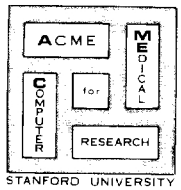
6

ANNUAL REPORT

FY 1971



ACME Computing Facility
Stanford University School of Medicine

Primary support from

Biotechnology Resources Branch,
National Institutes of Health

INTRODUCTION

I. SUMMARY

PART 1: ACME FACILITY DEVELOPMENTS

II. ACME FACILITY ACCOMPLISHMENTS - FY1971

III. ACME'S FUTURE DIRECTION

PART 2: ACME USER DEVELOPMENTS

IV. PROJECT DESCRIPTIONS: CORE RESEARCH AND MAJOR USERS

V. USER CORE RESEARCH

PART 3: UTILIZATION AND COST DATA

VI. BUDGET

VII. UTILIZATION DATA

PART 4: REFERENCE DATA

VIII. REPRESENTATIVE SAMPLE OF USER PROJECT DESCRIPTIONS

IX. SUMMARY OF COMPUTER RESOURCE USAGE

X. MEDICAL CENTER SURVEY

XI. PUBLICATIONS - FY1971

XII. TABLE A

TABLE OF CONTENTS

Page

INTRODUCTION 1

I. SUMMARY 2

A. Fiscal Year 1971 - In Retrospect 2

1. ACME System 2
2. User Projects 2

B. Fiscal Year 1972 - Looking Ahead 3

1. ACME System 3
2. User Projects 3

C. Request for Grant Extension 4

D. Overview of Five-Year ACME Experiment 4

PART 1: ACME FACILITY DEVELOPMENTS

II. ACME FACILITY ACCOMPLISHMENTS - FY1971 7

A. Software Modifications 7

1. Improvements in Reliability 7
2. Long Length Records 7
3. LISP Compiler 7
4. Small Machine Support 8
5. Other Software Developments 8

B. Hardware Modifications 9

1. Improvements in Reliability 9
2. Addition of PDP-11 9
3. Addition of Displays and Printer 10
4. Modification of 1800 10
5. Other Hardware Changes 10

Page

C. User Services 10

1. Consulting 11
2. Education 11
3. Documentation 11
4. User Tape Service Report 12

D. ACME Personnel 13

E. ACME Organization 16

III. ACME's Future Direction 17

A. The Transition Problem 17

1. Statement of the Problem 17
2. Discussion of Alternatives to be Explored 18

a. Path 1: Retain a Stand-Alone Facility in the Medical School 18
b. Path 2: Move Time-Sharing to 360/67; Add Front-End Processor for Realtime Needs 19
c. Path 3: Sharing of Facilities Between ACME and Hospital ADP Group 21

3. Goal: Model System for Biomedical Computing 21

a. Realtime Capability 21
b. Interactive/Batch Environment 22
c. Language Considerations 22
d. Small Machine Support 22
e. Access to Storage 23
f. Graphics 23
g. System Measurement 23
h. User Support 23
i. Reliability and Availability 23

B. Extensions to PL/ACME Services 24

1. Funding Priority 24
2. New Services 24

a. Small Machine Equipment Pool 24
b. Investigation of National Networks 24

Page

3. Extensions to Existing Services 25

a. Support for Small Machines 25
b. Compiler Improvements 25
c. Realtime Data Collection 26

4. I/O Devices 26

PART 2: ACME USER DEVELOPMENTS

IV. PROJECT DESCRIPTIONS: CORE RESEARCH AND MAJOR USERS 29

A. Core Research Descriptions 29

B. Major Users 40

V. USER CORE RESEARCH 46

A. Current Core Research Projects 46

1. DENDRAL 46
2. Drug Interaction Program 46
3. Clinical Laboratory 46

B. Proposed Core Research 46

1. Arrhythmia Detection 46
2. Other Projects 48
3. Realtime Programs 48

PART 3: UTILIZATION AND COST DATA

VI. BUDGET 50

A. Resource Expenditures 50

1. Personnel 51
2. Consultant Services 51

Page

3. Equipment 52
4. Consumable Supplies 53
5. Travel 53
6. Engineering Service 54
7. Publication Costs 54
8. Computer Services 54
9. Other Expenditures 54

B. Summary of Resource Funding 55

C. Resource Equipment List 56

D. Budget Justification 59

E. Income Basis for Extension Request 61

F. ACME Estimated Income Rate By End of FY1973 62

VII. UTILIZATION DATA 64

A. Interpreting ACME Utilization 64

1. Charging Units 64
2. User Categories 64

B. Utilization Trends 66

1. Page Minutes and Terminal Hours 67
2. ACME Utilization By Department 68
3. ACME Facility Income 69

PART 4: REFERENCE DATA

VIII. REPRESENTATIVE SAMPLE OF USER PROJECT DESCRIPTIONS 71

IX. SUMMARY OF COMPUTER RESOURCES USAGE 91

X. MEDICAL CENTER SURVEY 111

XI. PUBLICATIONS - FY1971 116

XII. TABLE A 121
