Dr. Joshua Lederberg, 26th February 1952.
The University of Wisconsin,
College of Agriculture,
Madison, 6. U.S.A.

Dear Dr. Lederberg,

Thank you for your letter and the two notes which accompanied it which I was much interested to read. There is little doubt that we are both dealing with the same phenomenon, though from different angles. The subject is a very complicated one and it will be a long time before we can be certain about the exact explanation.

I am sending herewith two copies of papers which may interest you, and I should be pleased to have reprints of your work in future.

Yours sincerely,
