Dr. Joshua Lederberg
Department of Bacteriology
University of California
Berkeley, California

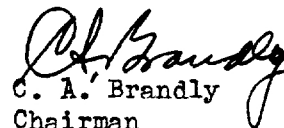

Dear Dr. Lederberg:

I have just had a letter from Dr. Burnet indicating that he would like to come to Madison in October rather than September. It will fit his itinerary to include the dates of October 16, 17 and 18 with the hope that this would be satisfactory to you as well as others here. I am now advising him that in your absence such dates will be satisfactory to various people here and preferable to the original proposal of the week of September 18. However, if this time will not fit into your plans perhaps we should write him immediately, although I gather that his schedule would make it most advantageous for him to stop here on his way west and for his sailing from Vancouver in November.

I trust that you are having a profitable and enjoyable summer and that the weeds will not have grown too high for you to see your residence on Eagle Heights when you return.

Best regards.

Sincerely yours,

C. A. Brandly
Chairman
