Subject: wipke proposal
To: FEIGENBAUM, BUCHANAN, RINDFLEISCH, damith
eci levinthal

We have received a proposal from wipke for sumex use. Lederberg agrees with the following proceedure for preliminary review;1) feigenbaum and buchanan should review it for its AI quality and its contribution to the AI goals of Dendral;2) Djerassi and D Smith should review its expected contribution to medical science; and 3) Rindfleisch should examine its expected demand on Sumex resources. We have two copies of the proposal and supporting materials. Let me know if it will be possible to accomplish this during the next two weeks.
