OFFICE OF THE DEAN

August 9, 1955

Dr. Joshua Lederberg  
Department of Bacteriology  
University of Wisconsin  
Madison, Wisconsin

Dear Dr. Lederberg:

We were delighted to receive your letter and to learn that you would like to come and visit with us in connection with the Chairmanship of the Department of Microbiology. I gather from your letter that you would be able to make the trip sometime shortly after the middle of September. Would you like to give me several possible dates so that we might agree on one that is mutually satisfactory?

With cordial regards.

Sincerely yours,

Abraham White  
Associate Dean
