OFFICE OF THE DEAN

September 2, 1955

Dr. Joshua Lederberg
Department of Genetics
The University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Dr. Lederberg:

I have your letter of August 30th, and needless to say, the Committee on the Selection of a Chairman for the Department of Microbiology is disappointed in your decision. Nevertheless, I can understand the sound reasons which have led you to reach your decision.

I do hope you will visit us should you be in the East.
With cordial regards.

Sincerely

Abraham White
