

NATIONAL SCIENCE FOUNDATION

WASHINGTON, D.C. 20550

JUN 6 1969

Dr. Joshua Lederberg  
Department of Genetics  
Stanford University School of Medicine  
Palo Alto, California 94305

Dear Dr. <sup>Joshua</sup>Lederberg:

The Division of Biological and Medical Sciences is pleased to inform you that your proposal has been approved by the National Science Foundation in the amount and approximate duration indicated in the accompanying copy of the grant letter.

In order that you may become fully aware of your institution's responsibilities as a grantee and your responsibility as a principal investigator of a National Science Foundation grant, we ask that you familiarize yourself at this time with Section II of the enclosed booklet, "Grants for Scientific Research."

May I suggest, when any question arises regarding your grant, that you contact the Genetic Biology Program directly. We will be pleased to be of assistance, and where necessary, will take up the question with other appropriate offices within the Foundation.

I wish you every success in your departmental program.

Sincerely yours,

Herman W. Lewis  
Program Director for  
Genetic Biology
