Dear Dr. Bunt:

Mr. Lederberg asked me to drop you in line to ask whether it would be possible to get back the manuscript of his on Problems in Genetics of Microorganisms. It is his only copy and he needs it for revision. If you are through with it he would appreciate its return.

Incidentally, Lederberg is anxious to complete his plans for the coming year. I hope that you and your group will soon be able to come to some conclusion in his case. Personally I hope he will be very seriously considered, but the reasons I wrote you earlier.

Sincerely
E. L. Parker
