

COURSE OUTLINE FOR ARMS CONTROL COURSE

Spring Quarter 1971

Note: We would propose that the number of lectures be reduced to two each week (total 20) in this quarter and that the class members be divided into sections after the first few meetings. Each faculty head of a section would hold one or perhaps two additional meetings each week with his section. The faculty head would also be responsible for guiding the preparation of term papers for students in his section.

<u>Meeting</u>	<u>Assignment</u>	<u>Topic</u>	<u>Lecturer*</u>
		I. Introduction to Arms Control and Conflict Resolution	
1.		Review of major problems in the control of the arms race: lessons from the past	Craig
2.		Review of major problems in the control of the arms race: alternative strategic futures	Panofsky
3.		Review of major problems: the role of military manpower, budgets, and other non-strategic considerations	Barton
4.	Term paper topic due	Techniques of conflict resolution in the seventies: legal aspects	Ehrlich
		II. The Contributions of the Scholar-Student to Arms Control	
5.		The scientist and policy making	Panofsky
6.		The role of the social scientist and historian in the making of strategic policy	Paret
7.		The lawyer and policy making	Ehrlich
