Sverdlovsk

Thanks again for the special effort you both made to come down on Monday!

I've briefed Bill Casey that he has to take Fyodor account seriously; and I'll see Ken Adelman next week. I'll also seek what I think will be positive encouragement to start the visit to US we talked about.

The press says that the Russians offered to talk about Sverdlovsk at the BWC review conference. There seems to be some problem about deciding on the most appropriate forum.

Of course I want to stay in touch.
