Dear Jim:

Your visit to Moscow.

I believe Paul Markes has filled you in re the NAS/CSAC/BW meeting.

Here is some background, mainly on the BW arms control part of the story. I will be visiting AEDA/DoS tomorrow. There is, understandably, a lot of institutional resistance to "buying" the Soviet's present account of Sverdlovsk '79.

I hope to call you in a few days.

Would you consider being in with you to Moscow the NAS/CSAC reports

"Vaccine Supply and Innovation"
