

Personal memo from
JOSHUA LEDERBERG

Hon Richard Dautzig
Undersecretary of the Navy
Pentagon. 2/15/74

Dear Dick -

Suggestions for your bibliography

(see what's publically advertised?)

I've not been so keen about that,
either WFO or OZA (and had some
influence on the latter). But how do
you get policy attention without public
excitation?

Look forward to seeing you next month.

P223

WFO/BW

[Cersiter; OZA]

Technology Surveys:

Best sources of experience and
insight:

- Julian Nall - former NID/S+T
ran several studies I worked
on
now at IDA
- Barry Leven (or Levin?)
once in ONI
later at CIA, maybe still
there.

We need brand new thinking for prediction
tors. Like who would use electronics in
the 1990's! Saddam Hussein.

Steve Lukasik is generally very smart
on such issues.
