Dr. D. H. Wenrich  
Department of Zoology  
University of Pennsylvania  
Philadelphia, Penna.

Dear Dr. Wenrich:

I am returning the manuscript by Lederberg and Tatum to you herewith, along with your and Lederberg's covering letters, with comments on the referee's suggestions.

As you will gather from these, we have modified the manuscript, taking into account most of the referee's well-taken points. However, we do not feel that "a judicious expansion" is justified at this time.

You will notice a) that we would prefer reversing the order of authorship as indicated on the title page, and b) that we have made no attempt to include and discuss papers which may have appeared during the eight months since original submission of this manuscript.

We hope our decisions in these matters meet with your approval.

Sincerely,

E. L. Tatum

ELT:gz  
encls.

Cc: Dr. J. S. Lederberg

*Dear Jack - Esther:  
Sorry I didn't get to see you. I only spent one  
night in Madison after the Chi. meetings. Why didn't  
you come down? All you coming to S.A.B. in Aug. - or  
will you be in Holey?  
Ed*
