July 6-53

Dear Jack:

Re Bentley Glass' letter
for Science, I have no special
feelings one way or another
on prepublication of Sex etc..
I wrote Bentley a note
saying this, and passing
final decision on to you.

OK.

The only objection might
be the hope to have a definitive
interpretation of Hayes' work -
but this is probably not
in order for a general paper
of this type -

Best to Esther -
Ed
