

June 11, 1954

Dr. S. E. Waksman
Director, Institute of Microbiology
Rutgers University
New Brunswick, N.J.

Dear Dr. Waksman:

First I want to indicate how much I enjoyed the symposium, both from the platform and in the audience. It was thoroughly successful, and I have to repeat one of the best managed affairs I have ever attended.

My wife Esther asks that I make a special point of transmitting her appreciation for the cordial hospitality afforded her.

My expense statement is attached.

With best wishes,

Joshua Lederberg
Associate Professor of Genetics
