Dear Mr. Sherburne:

Have you attempted any systematic follow up on the careers of Westinghouse Science Search finalists?

I would be particularly interested in comparisons of the first place winners with the runners-up.

If such a study has not been made, but you do have (updated) names of the cohorts -- say up to 1965, I can arrange a bio- and biblio-graphic survey. Please provide whatever identifying information -- or pointer to a directory like AMWS -- that you can properly offer that might help in verifying items from the literature (dates, schools and universities attended, field of interest).

Yours sincerely,
