Dr. Joshua Lederberg  
Department of Genetics  
University of Wisconsin  
Madison 6, Wisconsin, U.S.A.

May 9, 1953

Dear Dr. Lederberg,

working on a case of cytoplasmic inheritance in *Cilicidae*,  
the first account of which will appear in a few days in "Zeitschr.  
f. ind. Abst. Vererb. 85, 1953, 118f", I am very interested in your  
recent paper

Cell genetics and hereditary symbiosis.

Physiol. Rev. 32, 1952, 403-430

I would appreciate it very much if you could send me a  
reprint of this paper if you have any available for distribution.  
I will send my paper in exchange as soon as I get reprints.

Gratefully yours

H. Laven.
