Dear Josh:

Here is the chemical mutagenesis report that I should have sent you long ago. Also included are some letters relating to it; these are confidential, of course, but I thought you might find them helpful.

The letter to Marge is in response to a note from her (appended to a letter about bther things) asking if I knew anything about your program.

As always it was pleasant and stimulating to visit with you. Give my best wishes to Marguerite and David.

Sincerely

Jim

EROW
