Dr. M. Demerec
Department of Genetics
Carnegie Institution
Cold Spring Harbor, L.I., N.Y.

Dear Dr. Demerec:

We have in hand several manuscripts and papers in press which refer to papers in the 1951 Symposium volume. I wonder if it would be possible to obtain the correct page numbers for these papers, so that proper reference can be made now. For your convenience, I enclose a checklist and return envelope. If the titles have been altered from the specification on the program, I would be obliged for the correction.

May I raise a trivial question? The citations to CSH symposia are almost the bulkiest I know, owing to the long title, but their frequency is only a testimony of their value. It would be a minor convenience if the symposium itself could suggest a concise, suggestive abbreviation for use in bibliographies.

With best regards,

Sincerely,

Joshua Lederberg
