Dr. Joshua Lederberg  
Department of Medical Genetics  
The Medical School  
The University of Wisconsin  
Madison 8, Wisconsin

Dear Joshua:

I took so many pictures on my trip that I did not notice that the film you gave me was not the one I had started. According to my recollection, when I gave you the camera it had thirteen exposures already taken, and so I kept the first thirteen pictures from the film you gave me. These are returned enclosed.

I want to take this opportunity to congratulate you on your election to the National Academy, an honor you fully deserve.

With best regards,

Sincerely yours,

  
M. Demerec
