BIOLOGICAL LABORATORY

May 13, 1958

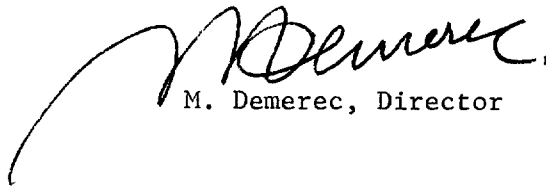

Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Joshua:

I wish to extend to you and Mrs. Lederberg an invitation to attend the meetings of this year's Symposium and take part in the discussions. Enclosed is a copy of the program.

The Laboratory will be very happy to have you as guests during the meetings. I will appreciate it if you will let me know whether you intend to come, and, if so, return the enclosed card as soon as possible.

Sincerely yours,

M. Demerec, Director

MD:af
Enclosures

Thanks you very much but I am afraid we have already made one trip too many for this year*! It looks like a most interesting meeting & I look forward to hearing about it from my colleagues. (* especially as we are going later on to Europe).

Best wishes
Joshua
