

Dear Jack and Esther,
I do not take credit for the
picture or poem on this card,
since these are products of
of my new children. They do,
however, express my feelings
about Christmas and I
take this opportunity to send
you my warmest wishes and
greetings. I hope that we
shall get to see you people
some time soon (S.A.B. meetings?).
I would like you to get to
know my new family, and,
of course, if you come to San
Francisco, to show off my
beloved city. Yours as ever, Mike

- I hope that the tree in your house
gives the glow that it does in mine,
- if it does, I know you'll have
a very happy time.

Merry Christmas + a
Happy New Year
