

November 15. 1950

Dear Dr. Lederberg,

Perhaps have you heard of the premature death of the regretted Prof. A. Grätia under the direction of which I worked. I am a candidate to the vacancy he left at the University of Liège. As you were kind enough to show some interest to my work, may I ask some words of appreciation that I could join to support my candidature and which will certainly be very useful. Kindly find herewith enclosed a list of my publications.

I thank you for your letter dated October 30 and am waiting for the strains. I apologise for the troubles I am giving and thank you very much.

I am very sincerely yours

Dr. P. Fredericq
Agrégé à l'Université de Liège
1 rue de Paris
Liège, Belgium.
