

PURDUE UNIVERSITY
BIOPHYSICAL LABORATORY
LAFAYETTE, INDIANA

Sept 13

Dear Joshua,

As you can see from my new address I have joined Benzer on his NSF grant which finally came through. Thanks again for your invitation to work at Madison.

I may attend the enzyme meeting in Detroit in November. I would like to talk to you then about some recent work Dave and I have done on K12 concerning the mechanism of recombination. Or if you happen to be near Lafayette before then please stop by.

with best regards

Alan Garen
